CONFIDENTIAL

1 August 1946

MEMORANDUM

**Subject: Documents from the State-War-Navy Coordinating Committee.**

1. The Director of Central Intelligence has been placed on the distribution list for copies of SWNCC documents in order to keep him advised of matters being considered by that Committee and decisions made.

2. After the Director has been apprised of these matters, papers which are believed to be of primary interest to offices, branches or divisions of the Central Intelligence Group will be circulated to those offices for the information of personnel concerned. As only one copy of these papers is received, it is necessary that they be retained for study in each office a minimum length of time. It is suggested that recipients maintain a sufficient temporary record of documents in which they have a present or foresee a future interest (number, date, title, classification) which will enable them to again secure the documents for reference at a later date if necessary.

3. Documents will be filed in the Advisory Council, Operations Branch, Executive Staff, Room 2171-A, where they may be obtained by calling extension 78300.

? // 4. Contacts with the Secretariat of the State-War-Navy Coordinating Committee regarding these matters will be made by the Advisory Council upon request of the interested office of CIG.

5. It will be noted that many SWNCC papers are classified Top Secret, Special Limited Distribution, which will require special handling in accordance with CIG security instructions.

**For the Director of Central Intelligence:**
